Is Anybody Listening?
do musical "The Ten Commandments"

Patrick Leonard & Maribeth Derry

They say I've got no right to question life without hope

or ask for anything more then to suffer and bleed at the end of a rope

They say I've got no right to look them in the eye_
that I belong in the dust at their feet
one day for sure
I'm gonna die

Is anybody listening?
Does anybody hear?
Does anybody out there see us drowning in our tears?
is our future written on a sky of cold...
Is Anybody Listening? - 3

p     God, if you're listening    mp    let us know

God, if you're listening let us know

mf    They teach us to believe we're not strong like them

mf    They teach us to believe we're not strong like them

that we don't have the will to crush these walls that hold us in
they try and make us think that we'll never have a chance

Can I fight for my own freedom with only these two hands?

Is anybody listening? Does anybody hear?

Does anybody out there see us struggling with our fear?
Is our future written on a sky of cold stone

if you're listening let us know

listening, let us know

You can tie a rock to my soul
but you can't build a prison for my mind.

You can chain my body to the earth but still my spirit flies.

Does anybody out there see us?
drowning in our fear? Will our hopes die slowly in the heat of the desert sun? God if you hear us

send us someone God, if you hear us

send someone
